ENVIRONMENTAL POLICY

PMZ COMATRANS, S.A., aware of the importance of preserving the environment, undertakes to guide its actions in an ethical and responsible manner towards environmental protection, acting preventively on the significant environmental impacts across all its areas of work.

For the protection of the environment, we undertake to:

- Continuously improve the effectiveness of the Environmental Management System.
- Protect the environment by preventing environmental pollution that may be generated by our activities, products and services.
- Comply with applicable legislation, as well as the requirements and commitments assumed by the company in relation to environmental aspects.
- Achieve our environmental objectives and targets, in accordance with our Environmental Management System.
- Train and raise awareness among the people in the organisation and those working on its behalf regarding the environmental aspects that their activity may generate, involving them in the control of these aspects and in the environmental performance of all company activities.

This policy will be published and communicated for the information of all employees, customers, collaborators, authorities and other parties involved with the industrial company, and may be modified with the aim of improving its standards.
